## General Statement

### Read Installation Instructions

Read the installation instructions before connecting the system to the power source.

## Safety Markings

### Warning Symbol

General warning. Read the Safety Guide before you work on any equipment. Be aware of the hazards involved with electrical circuitry and be familiar with standard practices for preventing accidents

### Warning- Hot Surface

Avoid contact. Surfaces are hot and may cause personal injury if touched.

### Warning - Hazardous Voltages

Hazardous Voltages are present. To reduce the risk of electric shock, follow the instructions.

### Warning - Hazardous Rotating Fan Blades

Keep away from moving fan blades.

### Warning- Handles are not intended for lifting the product

(DCS-7512N only) To prevent personal injury, handles are not to be used for lifting or transporting the chassis. Use handles only for assisting in maneuvering the chassis into position with a mechanical lift during installation.

### Multiple Power Supply Connections

This unit might have more than one power supply connection. All power connections must be removed to de-energize the unit.

## Electrical Warnings

### Comply with Local and National Electrical Codes

Installation of the equipment must comply with local and national electrical codes.

### Equipment Grounding

This product must be electrically grounded. Never operate the product with the ground connection missing. Never defeat the Protective Earth (PE) or Ground connection. The AC-input power supply relies on the ground connection made by the AC-Mains cord. Each DC-input power supplies requires its own conductor/cable for grounding.

Contact an electrician or your local building-code enforcement agency if you have concerns about connecting the product to the proper electrical ground.

### Mains Disconnecting Device

- For AC-powered systems, the plug-socket combination serves as the mains disconnecting device. It must be accessible at all times.
- For DC-powered systems, the circuit breakers or fuses on the DC power lines that service the DC circuits serve as the mains disconnecting device. Turn OFF the DC power line circuit breakers and remove the DC power line fuses to ensure that power is removed.

### Multiple Power Supply Connections

- This unit might have more than one power supply connection.
- All power connections must be removed to de-energize the unit.

### Hazardous Energy on DC Power Terminals.

- Always replace DC Power Terminal covers prior to energizing the DC circuit.

### Branch-Circuit Protection

- This product requires branch-circuit over-current protection to be provided as part of the building installation.

### Power Cord Exclusivity

- Any power cords provided by Arista are intended for use with Arista products only.

#### 警告

すべての電源コードは提供する製品で使用するためだけを目的としている。

#### 電源コードの他の製品での使用の禁止

Arista が提供するすべての電源コードは、Arista の製品でのみ使用してください。

## Facilities Warnings

### Restricted Access Area

This unit is intended for installation in restricted access areas. A restricted access area is where access can only be gained by service persons through the use of a special tool, lock and key, or other means of security, and is controlled by the authority responsible for the location.

### Proper Airflow

To prevent the switch from overheating, do not block air intake or exhaust ports. Allow at least 3 inches (~8 cm) of clearance at the front and back of the switch for air flow

### DCS-7316 Acoustic Level

The acoustic level of the DCS-7316 varies dependent upon loading and environmental conditions. Under nominal conditions the DCS-7316 will have a sound power level, measured in accordance with ISO 7779 between 75-83dBA; however in certain conditions this unit may reach a maximum of 93.8dBA. Per OSHA standard 1910.95, the employer shall administer a continuing, effective hearing conservation program whenever employee noise exposures equal or exceed an 8-hour time-weighted average sound level (TWA) of 85 decibels measured on the A scale.

## Installation, Service, and Disposal Warnings

### Installation by Qualified Personnel Warning

- Only trained and qualified service persons (as defined in IEC 60950-1) should install, replace, or service this equipment.

### Warning: Rack-Mounting and Servicing

To prevent bodily injury when mounting or servicing this unit in a rack, you must take special precautions to ensure that the system remains stable. The following guidelines are provided to ensure your safety:

- This unit should be mounted at the bottom of the rack if it is the only unit in the rack.
- When installing this unit in a partially filled rack, start at the bottom with the heaviest component
- If the rack is provided with stabilizing devices, deploy the stabilizers before mounting or servicing the unit in the rack.

### Warning: Handling Heavy Equipment - Modular Systems

- To prevent personal injury or damage to the chassis, never attempt to lift or tilt the chassis using the handles on modules (such as power supplies, fans, or cards); these types of handles are not designed to support the weight of the unit.
- Use a mechanical assist to install heavy equipment.

### Product Disposal

- Ultimate disposal of this product should be handled according to all local and national laws and regulations.

### Establishing the Ground Connection When Installing or Replacing the Unit

- When installing or replacing the unit, make the ground connection first and disconnect it last.

### No User-Serviceable Parts Inside. Do Not Open Unit.

- No user serviceable parts inside. Do not open unit. Refer all servicing to qualified service personnel.

### Nordic Grounded Socket Requirement

**Caution** - This product must be connected to a grounded socket.

#### Norge

- Advarsel !- Apparatet må tilkoples jordet stikkontakt.

#### Sverige

- Varning! - Apparaten skall anslutas till jordat uttag.

#### Suomi

- Laite on liitettävä suojavaadoituskoskettimilla varustettuun pistorasiaan.

## Standards and Conformity Compliance

### Declaration of Conformity

This equipment complies with the European Union (EU) LVD and EMC Directives. To receive a copy of the Declarations of Conformity (DoC) for Arista products, send an Email request to

compliance-request@arista.com

### California Perchlorate Contamination Prevention Act

#### (Title 22, California Code of Regulations, Chapter 33)

The battery inside this product might contain perchlorate, a known hazardous substance, so special handling and disposal of this product might be necessary. For more information about perchlorate and best management practices for perchlorate-containing substances, refer to

<http://www.dtsc.ca.gov/HazardousWaste/Perchlorate/index.cfm>

## Laser Notices

### Class 1 Laser Product

This product has provisions to install Class 1 laser transceivers that provide optical coupling to the communication network. Once a Class 1 laser product is installed, the equipment is a Class 1 Laser Product (Appareil à Laser de Classe 1). The customer is responsible for selecting and installing the Class 1 laser transceiver and for insuring that the Class 1 AEL (Allowable Emission Limit) per EN/IEC 60825-1, CSA E60825-1, and Code of Federal Regulations (CFR) Title 21 Part 1040 is not exceeded after the laser transceivers have been installed. Do not install laser products whose class rating is greater than 1. Refer to all safety instructions that accompanied the transceiver prior to installation. Only Class 1 laser devices certified for use in the country of installation by the cognizant agency are to be utilized in this product.

### Laser Radiation

- Invisible laser radiation may be emitted from unconnected optical cables or open connectors.
- Do not stare into laser beams.
- Do not view directly with optical instruments.

## EMC Class A Notices and Warnings

### Class A Notice for FCC

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case users will be required to correct the interference at their own expense.

### Class A Notice for Canada

This Class A digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe A est conforme à la norme NMB-003 du Canada.

### Class A Warning for Japan (VCCI)

この装置は、クラスA情報技術装置です。この装置を家庭環境で使用すると電波妨害を引き起こすことがあります。この場合には使用者が適切な対策を講ずるよう要求されることがあります。 VCCI-A

### Class A (Korean)

사용자안내문

A 급 기기 ( 업무용 방송통신기자재 )

이 기기는 업무용 ( A 급 ) 전자파적합기기로서 판매자 또는 사용자는 이 점을 주의하시기 바라며 , 가정외의 지역에서 사용하는 것을 목적으로 합니다 .

### Class A Statement Taiwan (BSMI)

這是甲類的資訊產品，在居住的環境中使用時，可能會造成射頻干擾，  
在這種情況下，使用者會被要求採取某些適當的對策

### Class A Statement PRC (CCC)

此为 A 级产品，在生活环境中，该产品可能会造成无线电干扰。  
在这种情况下，可能 需要用户对其干扰采取切实可行的措施

## Class A (Traditional and Simplified Chinese)

這是甲類的資訊產品，在居住的環境中使用時，可能會造成射頻干擾，在這種情況下，使用者會被要求採取某些適當的對策。

此为A级产品，在生活环境中，该产品可能会造成无线电干扰。在这种情况下，可能需要用户对其干扰采取切实可行的措施。
