Migration Options for customers with Pluribus Freedom 9000 Series Switches

Pluribus customers who have deployed the Freedom 9000 Series of Open Networking Switches with NetVisor Operating System (NVOS) are encouraged to consider migrating to the Arista DCS Family of data center and cloud networking 10G, 25G, 100G and 400G Ethernet switches that run the Arista EOS (Extensible Operating System) software and managed by Arista CloudVision. The Arista DCS-family of networking switches are based on merchant silicon based networking silicon and provide higher performance with improved features and scale and lower power.

Software Migration Options for customers deploying Pluribus NetVisor OS (NVOS) and Pluribus UNUM software on DELL Open Networking Whitebox Switches

Pluribus customers who have deployed NetVisor Operating System (NVOS) on Dell Open Networking switches or Edgecore White Box Networking switches or Pluribus Freedom 9000 series of switches are encouraged to consider migrating to Arista DCS Family of data center networking switches that run the Arista EOS (Extensible Operating System) software and get managed by Arista CloudVision. The Arista DCS-family of networking switches provide higher performance with improved features and scale and lower power.
