

Arista Networks announces the imminent end of sale for a number of MTP fiber optic cables. The product part numbers covered by this announcement are listed below in Table 1. The last day to order the affected products is June 9th 2016.

Single mode and multi-mode fiber cabling systems, cassettes and patch panels are integral to high performance datacenter networks. Arista MTP fiber optic cables follow the datacenter infrastructure standards for structured cabling and are fully interchangeable with widely available industry-standard alternatives.

## End of Sale of Arista Fiber Cables

### Migration Options

A choice of equivalent cables to the Arista end of sale parts are available through a number of alternate sources including those listed below.
