Arista Networks announces the upcoming end of sale for the 7150S Series in select regions including the EU due to expiration of EU RoHS exemptions for leaded components. The products covered by this announcement are listed below in Table 1. Replacement products eliminating these components are already available. The last day to order the affected products is January 17, 2020. Customers with active support contracts will continue to receive support from Arista TAC (Technical Assistance Center).

Migration Options

EU based customers and other affected regions are encouraged to migrate to the 7150SC models that provide the equivalent functionality as shown in Table 1. The replacement products support all existing features. For more information please refer to Field Notice 0041. The ongoing product lifecycle of the 7150S is not affected and will continue to be supported until further end of sales notices.
