

Arista Networks announces the upcoming end of sale for the DCS-7150SC Series and the DCS-7150S Series.

The products and part numbers covered by this announcement are listed below in Table 1. The last day to order the affected products is planned for December 1st, 2021.

Due to limited available component inventory, this date is subject to product availability and may be revised without notice.

Customers with active support contracts for 7150S and 7150SC Series products will continue to receive support from Arista TAC (Technical Assistance Center) as long as the systems remain covered under a support contract and as per the dates listed in Table 2, the End-of-Life Milestones.

## Migration Options

Customers affected by the End of Sales are encouraged to plan a migration to models that provide equivalent functionality or higher performance. The Arista 7060X2, 7060X3, 7050X3, 7170 and 7130 Series should be considered as alternatives depending on the nature of the networking requirements.
